4.5	Order Statistics	5

1 Probability and Counting

1.1 Introduction

1.2 Set Theory

1.3 Probability Measures

1.4 Permutations and Combinations

1.5 Conditional Probability

1.6 Independence, Law of Total Probability

2 Random Variables

2.1 Discrete Random Variables

2.1.1 Bernoulli

2.1.2 Binomial

2.1.3 Geometric

2.1.4 Negative Binomial

2.1.5 Hypergeometric

2.1.6 Poisson

2.2 Continuous Random Variables

2.2.1 Uniform

2.2.2 Exponential

2.2.3 Gamma

2.2.4 Beta

2.2.5 Uniform

2.2.6 Standard Normal

2.2.7 General Normal

2.3 Transformations of Random Variables

3 Expected Values

3.1 Mean and Variance

3.1.1 LOTUS

3.1.2 Inequalities

3.2 Moment Generating Functions

4 Joint Distributions

4.1 Joint and Marginal Distributions

4.1.1 Discrete

4.1.2 Continuous

4.2 Independence in Joint Distributions

4.3 Conditional Distributions

4.3.1 Discrete

4.3.2 Continuous

4.4 Functions of Joint Distributions

4.5 Order Statistics
